STEP 1: DRAW AND MEASURE YOUR KITCHEN'S WALL AND OBSTACLES

- Use a pencil and the attached graph paper to design your new kitchen.
- Pick a corner to start. Then measure the full length of the wall.
- Continue around the whole room. When record the measurements give a name to the wall you are measure. **Example:** Wall A: 168", Wall B: 144"
- Locate and measure obstacles such as electrical outlets, vents, pipes, radiators, etc. **Example:** Electrical outlet 32" from wall C, 20" off the floor
- Record any islands you already have or wish to have (record the dimension on the grid)

Draw and name each wall on the grid and record the corresponding dimensions in the measurement chart on the right:

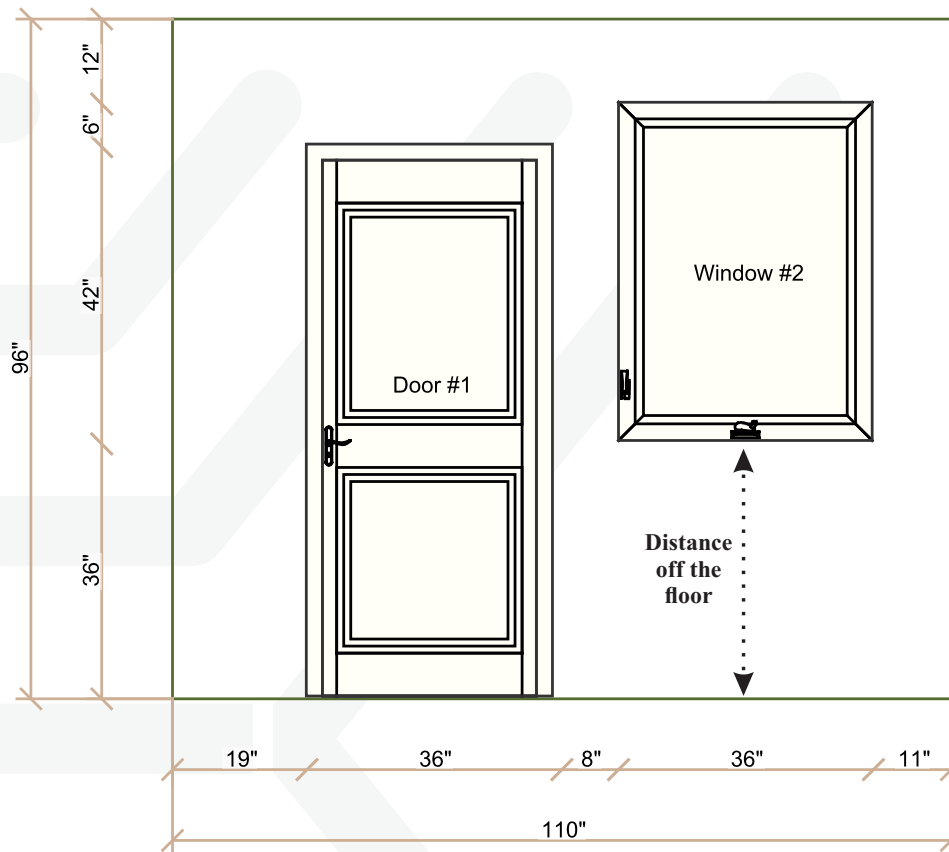

Wall Name	LENGTH in Inches
A	
B	
C	
D	
F
